Are you looking for a challenging, rewarding career in health care? Join the VON team and make a difference in the lives of our clients in your community by delivering exceptional care.

Job Summary:

The Clinical Education Manager provides leadership in clinical and professional practice education. The incumbent oversees and directs the provision of quality and client-centered care.

The Clinical Education Manager proactively assesses and determines education programming for regulated/unregulated roles, is responsible for performance evaluation of clinical staff, develops learning plans, and delivers and evaluates practice education in support of the goals and objectives of the Organization.

Education, Designations and Experience:

- Bachelor's Degree in Nursing (BScN, BN) is required or equivalent; Masters is preferred
- Current registration with provincial nursing regulatory body
- Minimum 5 years of recent, relevant clinical nursing experience
- Certificate or experience in Gerontology
- Experience in developing education program and support materials
- A strong understanding of education theories and frameworks, practical application and knowledge transfer
- Experience in providing clinical education utilizing adult education principles and evidence based practice
- Experience with wound care, IV therapy, and palliative care
- CNA certification preferred
- CAPSE, HOSPICE Care certification preferred

Other:

- A current and original copy of a satisfactory Criminal Records Check
- A Vulnerable Sector Search and/or Child Abuse Registry Check may be required
